

Mechanical engineering buyer

Plaats / Provincie: [Zeewolde](#) /

Branche / Niveau: [Inkoop](#) / [Hbo](#)

Aantal uren / Dienstverband: [40 uur](#) / [Full time](#)

Vacature referentie: [64976-B](#)

Bedrijfsomschrijving

You will be joining a well-established family-owned engineering company where craftsmanship, innovation and commitment are central. The organisation designs and delivers mechanical engineering solutions for clients worldwide and is known for its strong technical expertise and customer focus.

With approximately 80 colleagues based in Zeewolde and additional teams elsewhere in the Netherlands and abroad, the company offers a professional yet informal working environment with short communication lines and a strong team spirit.

The company's culture is built around three core values:

- Trust – you are trusted to take ownership of your role
- Freedom – you have the autonomy to make decisions and take initiative
- Responsibility – you contribute directly to the company's success

By translating the latest technological developments into practical, safe and maintainable designs, the organisation has built a strong market position within the processing and manufacturing industries worldwide.

Functieomschrijving

Do you have solid procurement experience and a strong affinity with engineering and manufacturing? As a Mechanical Engineering Buyer, you play a key role in ensuring that the right materials are available at the right time, under the best commercial conditions and at the most competitive cost.

As Buyer within the Mechanical Engineering department, your main objective is to support production and project delivery through effective, reliable and cost-conscious procurement.

Trust: you are trusted to take ownership of your role

Freedom: you have the autonomy to make decisions

Responsibility: your expertise directly impacts performance and growth

Key responsibilities include:

- Operational procurement of mechanical and technical components
- Requesting, analysing and comparing quotations and contracts
- Negotiating with suppliers and maintaining long-term supplier relationships
- Conducting market research and monitoring price and supply trends
- Managing and optimising the supplier and product portfolio
- Accurately recording and maintaining all procurement-related data
- Gradually expanding your responsibilities into strategic procurement in the longer term

You will work Monday to Friday from 08:30 to 17:00. The role is divided between two locations: Zeewolde and Biddinghuizen.

Functie-eisen

- Several years of relevant experience as a Buyer, preferably within metalworking, manufacturing or mechanical engineering
- Motivation to focus initially on operational procurement, with the ambition to grow into a more strategic role
- Strong communication and negotiation skills
- Fluent in both Dutch and English

Arbeidsvoorwaarden

- **A one-year fixed-term contract**
- Gross monthly salary between €3,500 and €5,000 based on a 40-hour work week
- Travel allowance of €0.23 net + €0.06 gross per kilometre, regardless of place of residence
- 25 days of annual leave + 3 additional roster-free days (full-time)
- 8.33% holiday allowance
- Pension accrual scheme
- A stable role with long-term prospects in a technically strong organisation

Sollicitatieprocedure

- Step 1.** Apply for the position by using the application button
- Step 2.** We will contact you for an initial telephone introduction
- Step 3.** A personal meeting at FlevoDirect
- Step 4.** Introduction to your future employer and interview
- Step 5.** Job offer and start of your new role
